About

WebCamp Zagreb is a technology-oriented conference built by the community for the community. We're aimed at software developers and designers, regardless of their technology preference.

The conference is organized by volunteers from local user groups acting together under the wing of the WebCamp nonprofit organization with the mission to promote the exchange of knowledge and experiences in a healthy cooperative environment.

History

WebCamp Zagreb was founded in 2012 when a group of enthusiasts from local user groups got together in an effort to create a conference for the whole community. Tickets were free and all of them were handed out in a single day making the conference a resounding success. Since then, WebCamp Zagreb has steadily grown in size and quality, reaching over 800 visitors in 2016 and 2017.

Location & venue

WebCamp Zagreb 2018 will take place on the 5th & 6th of October at the Plaza Event Centar, Slavonska avenija 6 in Zagreb, Croatia.

The workshops will be held on the 4th of October at the same venue.

All talks will be in English.

Expected audience

800 developers, designers, and business owners looking to learn and hear about new opportunities*

30 speakers from Croatia and abroad

* Based on previous years' attendance
